

ASGARD INDUSTRIAL SYSTEMS LTD.

**VIRON® International** is a leading manufacturer of Industrial, Metal Finishing and Municipal air moving and air cleaning systems made from corrosion resistant materials

### Viron International Product Line

#### Scrubbers

Horizontal PVC/FRP Poly Pro VHS-1000

VIR-TI-CAL™ PVC/FRP Poly Pro VVS-3000

PVC Blower VBS-5000

Chrome Scrubber VCS-9000

Control Panel

#### Dampers

VI-A-TROL® Dampers

#### Exhaust Fans

PVC/FRP Poly Pro Centrifugal Fans VCB-1100

Inline Centrifugal Fans VIF-200

PVC/FRP Radial Blowers VRB-600

FRP Lab Blowers VLB-700

PVC/FRP Push/Exhaust Blowers VPB-800

#### FRP Louvers

Louvers

#### Ductwork

FRP Duct

PVC VI-A-DUC®

SSteelcoat®

#### Tanks & Hoods

Tanks

Hoods

ASGARD INDUSTRIAL SYSTEMS LTD.

**Viron® International Corporation** offers the most complete line of duct products for the **Industrial, Municipal** and **Metal-Finishing** markets of any manufacture. Viron® International maintains multiple fabrications facilities to serve its customer needs. Duct ranging from **1.5"Ø** to **120"Ø** serves any Odorous-Corrosive application. Viron® International's modern fabrication facilities utilize the most advanced production equipment available to meet it's stringent **"FQ" First Quality-QA/QC** Standards.

- **PVC, PP, CPVC, FRP and SST Fabrication**
- **Round and Rectangular**
- **Flange, Coupled or Butt Connection**
- **Complete line of Standard Fittings, Dampers, Stacks and Stack Caps**
- **Class 1 Duct Designation**
- **Factory Mutual (FM) approved Products**
- **Built to ASTM and SMACNA Standards**
- **Certified Thermoplastic and Metal Welders**
- **Union Certified FRP and Metal Shop**

Viron® International Corporation's duct products offer its customers the most variety with the multiple substrates available. Viron® Engineering can match the correct duct products to the specific application. Customer First along with quality value added has made Viron® Duct the product of choice in the Industrial, Municipal, and Metal-Finishing markets.

ASGARD INDUSTRIAL SYSTEMS LTD.

## **DAMPERS**

- **Materials of Construction:** Halar Coated SST, PP, FRP, PVC, and CPVC
- AMCA Certified Low Leakage Dampers (VI-A-TROL Series)
- AMCA Approved to 30" w.g.
- Blastgate, Opposed Blade, Inlet Vane, and Backdraft Designs Available
- Sizes from 2" Dia. - 120" Dia. / Rectangular Also Available
- Manufactured per NBS PS15-69 & SMACNA Standards
- Engineered and Manufactured by Viron International Corporation

## **DUCTING**

**Materials of Construction:** Halar Coated SST, PP, FRP, PVC, and CPVC

- "FM" Factory Mutual Approved (4922 and 4910 Approved) Coated
- SST Duct System (SSteelcoat)
- Sizes from 2" Dia. - 120" Dia. / Rectangular Duct Available
- Full Line of Standard Duct, Fittings, Dampers, and Inline Mist Eliminators
- Stacks and Stack Caps
- Duct Built to SMACNA Standards
- Engineered and Manufactured by Viron International Corporation

## **SCRUBBERS**

**Materials of Construction:** FRP, PP, PVC, and CPVC

- Sizes From 500 CFM - 100,000 CFM
- Horizontal and Vertical Configurations Available
- Remote and Self Contained Recirculation Available
- Acid, Alkaline, and NOx Scrubbers
- Skid Mounted Units Available
- Engineered and Manufactured by Viron International Corporation

## **FANS**

**Materials of Construction:** FRP, PP, PVC, and CPVC

- Solid FRP Dynamically Balanced Wheel
- AMCA Certified
- Arrangement 8 and 9 Available
- Sizes from 500 CFM to 150,000 CFM
- Heavy Gauge Epoxy Coated Steel Pedestal
- Radial and Lab Blowers Available
- Engineered and Manufactured by Viron International Corporation
